

PE provision at Euxton CE Primary School

The P.E provision at Euxton C of E Primary School truly reflects our philosophy that sport should be available and enjoyed by all. Children are encouraged to make healthy life-style choices and to participate no matter what level they play at. This results in a school of children who love being active!

P.E in the Infants is skills based; equipping them with the fundamental skills in Dance, Athletics, Gymnastics and Games that they need to progress into competent athletes. These are learnt individually to help them master their technique and are then practised in fun core tasks.

P.E in the juniors evolves these skills mastered in the Infants, teaching children to apply them to specific sports. They learn how to use tactics in a range of situations, start to be able to choreograph their own sequences in Gymnastics and Dance as well as continue to develop their techniques.

To make sure all children have something they can enjoy and achieve, we have a varied range of extra-curricular sporting activities. These include boys and girls Football, Netball, Rounders, Athletics and Dodgeball. The children also have the opportunity to participate in an even wider range of competitions including the previous mentioned sports as well as a local swimming gala, Cross Country, Gymnastics, and as of this year, a Duathlon.
