WELCOME FROM YOUR PTFA

Myself and Kath would like to say **HELLO** for another year as the current Chair and Vice of your PTFA. Alongside Becky (treasurer) and Alison (secretary) we hope to co-ordinate and run lots of fun events for the children and raise plenty of funds along the way.

Our school and amazing PTFA team strongly believe that our children should be able to have as much experience and enjoyment at school as possible. The monies raised are used to pay for activities, fund trips and buy new equipment for all our children to enjoy.

Our work can only be done by the generosity of the parents who volunteer and everyone that supports the events. Last year we had an amazing total of over £9,000 and bought lots of great, new resources for school and our children.

This year we have gladly welcomed 3 new volunteers Kate, Dominic and Trudy – great to have you on board and thank you!

If you are interested in what we do please come along to a meeting or drop us an email (lcr29ot@gmail.com) Meetings are usually in an evening every couple of months based around planned events.

We would love new ideas, faces on the team and thoughts on changes for the future. We look forward to the year ahead Laura and Team x

Fundraising Aims 2018 – 2019

Well last year our fundraising aim was to provide new IT equipment for classrooms which we had planned to include a class set of lap tops. Unfortunately school instead needed an additional interactive whiteboard due to a broken board and we utilised funds to provide not just the 2 planned whiteboards but a third, so reception could continue to utilise this resource. So we are continuing to strive for the laptops this year. We will be buying 2 straight away and fundraising for the additional devices.

However, our main theme for this school year we want to be more experiential for the children. We have spent a lot of money on 'things' previously so this year want to focus on some fun, learning experiences to add to the diversity of teaching that school provides. Some excellent companies have already been identified to offer science based experiences and programming and robotics. We will keep you updated!
